Object-oriented programming

API design and integration

Results-driven Software Engineer with a B.Tech in Computer Science and two years of experience at IBS Software, where I served as a Software Developer for a Japanese client (HIS), successfully designing and implementing a range of APIs. Currently pursuing an MSc in Software Engineering at the University of Limerick, deepening my expertise in scalable systems and modern development practices. Recognized for being hardworking, adaptable, and a quick learner, I excel under pressure and integrate seamlessly into new teams to deliver high-quality solutions.

Experience

2023-07 - 2025-07	Software Developer <i>IBS Software, Kochi</i> - Improved software efficiency by troubleshooting and resolving coding issues. - Saved time and resources by identifying and fixing bugs before product deployment. - Integrated third-party APIs to enhance overall application functionality and improve user experience. - Continuously updated skillset through professional development courses, staying current with industry trends and emerging technologies.
-------------------	---

Education

Expected in 2026-09	Master of Science: Software Engineering <i>University Of Limerick - Limerick</i>
2023-04	Bachelor of Science: Computer Science <i>Viswajyothi College of Engineering And Technology - Thodupuzha</i>

Achievements

- Recieved the "Debutant Award" at IBS Software for consistent dedsication and high quality work.
- Awarded "Team Champ" for exceptional team contribution and collaboration at IBS Software.
